

## Airline regulations for transporting a dog

The following information does not constitute official notification. Before travelling, it is advisable to read the current regulations of the respective airline regarding dogs. You can find the link under the name of the airline you are looking for.

### Aegean Airlines

#### Web

<https://en.aegeanair.com/travel-info/travelling-with-aegean/special-assistance/traveling-with-pet/>

#### General information

- all health documentation for the dog is required,
- even if you make your reservation online, you must notify the Aegean Reservations Department,
- dogs are not allowed on flights to/from Düsseldorf and to London Gatwick Airport,
- if an infant is also travelling in the cabin, dogs are not allowed.

#### Transport in the cabin

- each passenger is allowed to bring 1 dog onto a flight,
- maximum weight: 8 kg (pet + carrier),
- the carrier's maximum size: 55x40x23 cm (length x width x height),
- the carrier must have ventilation on 4 sides,
- the cage must be a leak- and escape-proof with a securely fastened door,
- the carrier must be large enough that the dog can stand up,
- there should be securely fixed food and water bowls in the carrier,
- the carrier must be placed under the seat in front of you,
- dogs may enter lounges but should await their onward journey in their special carrier.

#### Transport in the aircraft hold

- maximum weight: 32 kg (pet + carrier),
- If the dog's weight is 4 kg or under, the carrier's max size: 60x45x40 cm (length x width x height),
- If the dog's weight is 6 kg or under, the carrier's max size: 80x55x55 cm (length x width x height),
- If the dog's weight is 13 kg or under, the carrier's max size: 100x65x70 cm (length x width x height),
- If the dog's weight is 22 kg or under, the carrier's max size: 125x75x85 cm (length x width x height).

### **Transport as a cargo**

- the carrier's maximum size: 105x75x79 cm (length x width x height),
- for more information contact the Aegean Cargo Department at [info-cargo@aegeanair.com](mailto:info-cargo@aegeanair.com).

## **Aeroflot Airlines**

### **Web**

<https://www.aeroflot.ru/us-en/information/special/animals>

### **General information**

- Aeroflot requires that customers give them at least 36 hours notice for transporting pets,
- the number of animals that can be carried in the aircraft is limited.

### **Transport in the cabin**

- each passenger can bring 1 dog onto a flight,
- maximum weight: 8 kg (pet + carrier),
- carrier's max size if transporting under the seat: 44x30x26 cm (length x width x height),
- carrier's max size if transporting your pet on the passenger seat:
  - for a hard-sided carrier: 50x35x30 cm in Comfort and Economy class salons; 50x40x30 cm in the Business class salon,
  - for a fabric carrier: 50x35x32 cm in Comfort and Economy class salons; 50x40x40 cm in the Business class salon,
- the carrier must be large enough that the dog can stand up.

### **Transport in the aircraft hold**

- maximum weight: 50 kg (pet + carrier),
- the carrier must be large enough that the dog can stand up.

### **Transport as a cargo**

- to send your pet as unaccompanied cargo, contact Aeroflot PJSC's cargo sales agents in your area.

## **Air Astana**

### **Web**

<https://airastana.com/global-en/information/carriage-of-pets>

### **General information**

- to arrange transportation on board Air Astana, submit a request through the online forms available on the self-service portal at least 24 hours before departure,
- there are a limited number of spaces available for animals on Air Astana flights,
- pets are not permitted to travel from India, Great Britain, Ireland, South Africa, or Australia.

#### **Transport in the cabin**

- maximum weight: 8 kg (pet + carrier),
- the carrier's max size:
  - for Airbus and Boeing aircraft 30×47×27 cm (length x width x height),
  - for Embraer aircraft 29×43×26 cm (length x width x height),
- the carrier must be placed under the seat in front of you,
- the carrier must be well ventilated and waterproof,
- the carrier must be large enough that the dog can stand up,
- If the carrier comes with wheels, these must be removed,
- soft carrier is recommended.

#### **Transport in the aircraft hold**

- maximum weight: 50 kg (pet + carrier),
- dogs over 14 kg must travel alone in the carrier,
- one passenger is allowed to transport up to three animals in one carrier, as long as they are from the same litter and under 6 months old,
- the carrier must have ventilation on 4 sides,
- the carrier must be large enough that the dog can stand up,
- there should be securely fixed food and water bowls in the carrier,
- ensure that your dog is wearing a collar and there is an appropriate leash available,
- pets over 40 kg must be transported in strong wooden carriers.

#### **Transport as a cargo**

- Air Astana provides a cargo service for animals who exceed the limits to travel in the aircraft hold,
- Air Astana Cargo Offices will help you to travel with your dog, contact [special.services@airastana.com](mailto:special.services@airastana.com).

### **AirBaltic**

#### **Web**

<https://www.airbaltic.com/en/travelling-with-pets>

#### **General information**

- limited number of pets are allowed on each flight.

#### **Transport in the cabin**

- maximum weight: 8 kg (pet + carrier),
- the carrier's maximum size: 55×40×23 cm (length x width x height),
- each passenger may bring only 1 carrier into the cabin,
- travel with 2 of your pets in the same carrier:
  - they must be the same species (2 dogs),
  - weight restrictions still apply,
- the carrier stays under the seat in front of you the entire flight.

#### **Transport in the aircraft hold**

- maximum weight: 75 kg (pet + carrier),
- weight restriction on flights to/from Amsterdam is max 39 kg,
- the carrier's maximum size: 84×142×84 cm (length x width x height),
- travel with 2 of your pets in the same carrier:
  - they must be the same species (2 dogs),
  - similar size and weight, less than 14 kg each,
  - or 3 young dogs if they are up to 6 months old,
- the carrier must be leak- and escape-proof with a securely fastened door and ventilation holes on at least three sides,
- the carrier must be large enough that the dog can stand up,
- there must be food and water bowls in the carrier,
- any carrier with an animal exceeding the total weight of 32 kg must be equipped with at least 2 handles,
- tranquilization of dogs is not recommended.

#### **Transport as a cargo**

- weight over 75 kg (pet + carrier).

### **Air Europa**

#### **Web**

<https://www.aireuropa.com/ot/en/aea/travel-information/passengers/pets.html>

#### **General information**

- if you fly to/from the UK, call the Cargo Department,
- each passenger is permitted to travel with up to five pets.

#### **Transport in the cabin**

- dogs are allowed to travel in the cabin, except in Business class,
- maximum weight: 10 kg (pet + carrier),
- the carrier's maximum size: 40×30×30 cm (length x width x height),
- the carrier must be placed under the seat in front of you,

- fabric and well-ventilated pet carrier is required,
- the carrier must be large enough that the dog can stand up,
- dogs must be at least 3 months old,
- travelling with 3 pets in the same carrier is allowed if:
  - they must be the same species (2 dogs),
  - maximum weight: 10 kg (pet + carrier),
- brachycephalic dogs may only travel in the cabin and must not weight more than 10 kg including the carrier,
  - breeds: Affenpinscher, American Bully, Boston Terrier, Boxer (all breeds), Bulldog (all breeds), Bullmastiff, Cane Corso, Pug (all breeds), Chin / Japanese Spaniel, Chow Chow, Dogue de Bordeaux, Griffon Bruxellois, Lhasa Apso, English Mastiff, Neapolitan Mastiff, Pekingese, Pitbull, Shar-Pei, Shih Tzu, Staffordshire bull terrier, English Toy Spaniel, and Cocker Spaniel.

- reserve your dog's place on board at least five days before you are scheduled to depart,
- dogs must be at least 15 weeks old,
- one carrier and 1 dog is allowed per passenger,
- dogs must undergo a veterinarian examination within 72 hours before departure,
- dogs are not allowed in flights from Malta to the UK and from London Gatwick to Malta, however, they are allowed when departing from London Heathrow to Malta.

#### **Transport in the cabin**

- maximum weight: 10 kg (pet + carrier),
- the carrier's maximum size: 40x34x18 cm (length x width x height),
- the carrier must be placed under the seat in front of you.

#### **Transport in the aircraft hold**

- maximum weight: 60 kg (pet + carrier),
- the carrier's maximum size: 100 cm (height).

#### **Transport as a cargo**

- maximum weight: 60 kg (pet + carrier),
- the carrier's maximum size: 110 cm (height),
- for more information get in touch with the Cargo department.

## Air Serbia

### Web

<https://www.airserbia.com/en/info-and-help/travel-guidelines/traveling-with-your-pets>

### General information

- dogs must be 12 weeks or older
- each passenger is permitted to travel with only one carrier.

### Transport in the cabin

- maximum weight: 8 kg (pet + carrier),
- the carrier's maximum size: 40x30x24 cm (length x width x height),
- the carrier must be leak- and escape-proof with ventilation holes,
- 2 pets may travel in the same carrier if they are from the same litter.

## American Airlines

### Web

<https://www.aa.com/i18n/travel-info/special-assistance/pets.jsp>

### General information

- you can travel with a pet on most flights up to 12 hours, but up to 12 hours travel time is allowed, or you can fly to/from certain destinations between the following countries:
  - within the 48 contiguous states of the United States,
  - between the U.S. and Canada,
  - Alaska,
  - Mexico,
  - Puerto Rico,
  - St. Croix,
  - St. Thomas,
- American Airlines does not accept pets in the cabin to/from Hawaii, Bolivia, Chile, Uruguay, Argentina, Venezuela, or on transatlantic flights,
- checked pets cannot travel on A321, A321XLR, A321XLR, A320, or A319 aircrafts.

### Transport in the cabin

- for pets that can be carried as hand luggage, the number of carriers on board is limited: 7 carriers on American Airlines flights / 5 carriers on American Eagle flights / 1 carrier in the First Class,
- transporting a pet is not included in the free baggage allowance,
- pet strollers must be checked in separately,
- the carrier must be placed under the seat in front of you the entire flight,

- fabric pet carrier is recommended,
- maximum weight: 9 kg (pet + carrier),
- the carrier's maximum size:
  - Hard-sided carrier:
    - Mainline flights of the American: 48x33x22 cm (length x width x height),
    - Regional flights of American Eagle: 40x30x20 cm (length x width x height),
  - Fabric carrier (recommended): 46x28x28 cm (length x width x height).

### **Transport in the aircraft hold**

- airlines accept up to two pets as checked baggage for active-duty U.S. military and U.S. State Department Foreign Service personnel traveling on official orders. Unfortunately, pets belonging to other passengers are not permitted as checked baggage.

### **Transport as a cargo – American PetEmbark**

- the carrier must be large enough that the dog can stand up,
- maximum weight: 45 kg (pet + carrier),
- the carrier must be made of wood, metal, plastic, or similar materials,
- the carrier's door must be made of welded or cast metal,
- the carrier can be secured at the top and bottom with screws, for which you need to provide cables that can be released in 4 corners,
- the carrier must be leak- and escape-proof with a securely fastened door,
- must be ventilated on at least 3 sides for domestic flights and 4 sides for international flights,
- there must be securely fixed food and water bowls in the carrier,
- a small bag of food should be attached to the top of the carrier,
- the carrier must be clean, secure, and tightly closed, with an absorbent lining on the bottom,
- 2 dogs may travel in the same carrier if:
  - they are the same species (2 dogs),
  - they are similar size and weight, less than 9 kg each,
  - they must be between 8 weeks and 6 months old.

### **Other restrictions**

- brachycephalic or snub-nosed dogs (including mixed breeds) are not allowed to travel as checked pets, such as: Affenpinscher, American Staffordshire Terrier, Boston Terrier, Boxer (all breeds), Brussels Griffon, Bulldog (all breeds), Cane Corso, Chow Chow, Dogue De Bordeaux, English Toy Spaniel, Japanese Chin, Lhasa Apso, Mastiff (all breeds), Pekingese, Pit Bull, Presa Canario, Pug (all breeds), Shar Pei, Shih Tzu, Staffordshire Bull Terrier, Tibetan Spaniel,

- Dogs must be at least 8 weeks old to travel within the U.S. and to Puerto Rico. For international travels into the U.S., the age and vaccine requirements for the dog depend on the rabies risk of the departure country. Dogs arriving from high-risk countries must be at least 16 weeks old and have received their rabies vaccinations before traveling to the U.S.
- if you're traveling on a connecting flight, checked pets will only be able to connect through these cities:
  - Charlotte, NC (CLT)
  - Chicago O'Hare, IL (ORD)
  - Dallas / Fort Worth, TX (DFW)
  - Los Angeles, CA (LAX)
  - New York Kennedy, NY (JFK)
  - New York LaGuardia, NY (LGA)
  - Miami, FL (MIA)
  - Philadelphia, PA (PHL)
  - Phoenix, AZ (PHX)
  - Washington Reagan, DC (DCA),
- due to federal requirements for feeding and water provision, you must provide written proof that:
  - your pet has been fed and offered water within 4 hours (with the specific time noted) before departure,
  - the written proof must be securely and visibly attached to the outside of the carrier,
  - it has your signature with the date and time you signed it,
  - you must also provide feeding and watering instructions for a 24-hour period. Instructions stating "no food or water" are not allowed unless specified by a veterinarian.
- sedation:
  - following the recommendations of the American Veterinary Medical Association (AVMA), they do not accept pets that have been sedated or tranquilized. Pets under the influence of sedatives or tranquilizers are at a higher risk of respiratory and cardiovascular issues at high altitudes.
- temperature:
  - they have temperature restrictions to ensure that pets traveling with American Airlines Cargo are not exposed to extreme heat or cold.

## Azerbaijan Airlines

### Web

<https://portal.azal.az/en/information/baggage/pets/>

### General information

- dogs weighing 38–50 kg (pet + carrier) may be transported—in this case only 1 animal may be transported in a carrier. Advance booking is required, so please contact the airline.

## I-Fly

### Web

<https://www.iflyltd.ru/en/>

### Transport in the cabin

- maximum weight: 8 kg (pet + carrier),
- the carrier's maximum size: 25x38x51 cm (length x width x height),
- the carrier must be placed under the seat in front of you.

### Transport in the aircraft hold

- for weight over 8 kg.

## ITA Airways

### Web

[https://www.ita-airways.com/en\\_en/fly-ita/organize-your-trip/pets.html](https://www.ita-airways.com/en_en/fly-ita/organize-your-trip/pets.html)

### General information

- limited number of pets are allowed on board.

### Transport in the cabin

- maximum weight for domestic flights: 10 kg (pet + carrier),
- maximum weight for all other flights: 8 kg (pet + carrier),
- the carrier's maximum size: 24x30x24 cm (length x width x height)
- soft-sided, semi-rigid, or rigid carriers are allowed,
- the carrier must be well ventilated and waterproof,
- the carrier may be used to carry up to 5 pets of the same species, provided their total weight does not exceed 10 kg on domestic flights and 8 kg on all other flights.

### Transport as a cargo

- if the carrier comes with wheels, these must be removed,
- the maximum size of the carrier may vary depending on the aircraft.

## Jet2 Airlines

### Web

<https://www.jet2.com/faqs?topic=medical-and-special-assistance&category=assistance-dogs>

### General information

- dogs are not permitted on board, except for guide dogs.

## Loganair

### Web

<https://www.loganair.co.uk/travel-help/pets/>

### General information

- one pet carrier is allowed per flight,
- dogs are welcome on Loganair's domestic flights except on routes operated by the following aircraft: Twin Otter – for Barra, Tiree and Campbeltown,
- puppies must be at least 12 weeks old to travel
- for pet transport, please contact the Reservations Team.

### Transport in the cabin

- dogs are not permitted to travel in the cabin.

### Transport in the aircraft hold

- maximum weight: 32 kg (pet + carrier),
- the carrier's maximum size: 90x70x75 cm (length x width x height),
- 2 pets can travel in the same carrier if:
  - they must be the same species (2 dogs),
  - similar size and weight, less than 10 kg each dog.

## LOT Polish Airlines

### Web

<https://www.lot.com/hu/en/journey/special-services/traveling-with-pets>

### General information

- a limited number of pets are allowed on board,
- check it when you book your ticket on lot.com or later, up to 12 hours before departure.

### Transport in the cabin

- only non-commercial transport is allowed,
- maximum weight: 8 kg (pet + carrier),
- dimensions of the carrier: for B787 and B737 planes: 50x40x20 cm (length x width x height) or for DH4, E70, E75, E95 planes: 45x30x20 cm (length x width x height),
- the carrier must be placed under the seat in front of you,
- brachycephalic dogs can only be transported in the cabin.

### **Transport in the aircraft hold**

- only non-commercial transport is allowed,
- only one adult animal is allowed per carrier, except for animals up to 6 months old, in which case, up to three animals may be placed in one carrier,
- carrier specifications:
  - the carrier must be large enough that the dog can stand up,
  - clean, secure, and tightly closed, with an absorbent lining on the bottom,
  - there should be securely fixed food and water bowls in the carrier,
  - ventilated on at least three sides,
  - made of fiberglass, metal, rigid plastics, solid wood, or plywood, with no wheels attached (if wheels are present, they must be removed),
  - carriers made entirely of welded mesh or wire mesh are not suitable for air transport,
  - dimensions of the carrier: for B787 Dreamliner: 125x96x64 cm; for B737, 7M8: 137x114x86 cm; for E70, E75, E90: 120x102x71 cm; for DH4: 170x70x143 cm (length x width x height).
- LOT does not transport brachycephalic dog breeds in the aircraft hold. Brachycephalic dog breeds: American Staffordshire Terrier (Staffordshire Bull Terrier), American Pit Bull Terrier, Boxer, Boston Terrier, Brachycephalic, Bulldog (all breeds), Bull Mastiff, Cane Corso, Cavalier King Charles Spaniel, Chihuahua, Japanese Chin, Chow Chow, American Cocker Spaniel, Dogue de Bordeaux, Belgian Gryphon, Brussels Spaniel, King Charles Spaniel, Lhasa Apso, Mastiff (all breeds), Pugs (all breeds), Pekingese, Monkey Pinscher, Shar Pei, Shih Tzu, Japanese Spaniel, Tibetan Spaniel.

### **Transport as a cargo**

- transporting animals for commercial purposes (such as for sale or transfer of ownership) incurs additional costs due to the need for a customs agency and other requirements. Therefore, such transport is only possible as Cargo.
- The transport of animals can only be organised through freight forwarding companies. An up-to-date list of cargo forwarding companies cooperating with LOT Cargo is available on the Cargo Office website: <https://www.lot.com/hu/en/cargo/cargo-offices>

- Fees for this service depend on the size of the pet's carrier, the weight of the animal, and the route. For more information about the cargo service, contact them directly.

## Lufthansa Group

### Web

<https://www.lufthansa.com/er/en/travelling-with-animals>

### General information

- each passenger is allowed to take a maximum of two dogs with them,
- the minimum age of the dogs to be transported is 12 weeks and 15 weeks for transporting from/to/via Germany.
- brachycephalic dog can only travel in the cabin,
- It is forbidden to import the following breeds into Germany. Export and transit are, however, permitted: Pit Bull Terrier, American Staffordshire Terrier, Staffordshire Bull Terrier, Bull Terrier.

### Transport in the cabin

- maximum weight: 8 kg (pet + carrier),
- book your pet on board no later than 72 hours before departure

### Transport in the aircraft hold

- dogs cannot be transported in the cargo hold on connecting flights via Munich, but it is still possible to book transit and connecting flights with checked-in animals and have them through-checked via Frankfurt,
- dogs classified as fighting or dangerous breeds must be transported exclusively in special crates placed in the cargo hold. An exception applies to fighting dogs aged between three and six months, which may be transported in standard transport crates.
- Breeds and cross-breeds classified as fighting or dangerous dogs: American Bully, American Bulldog, Dogo Argentino, Karabash (Kangal) (Anatolian Shepherd Dog), Caucasian Ovcharka (Caucasian Shepherd Dog), Rottweiler.  
American Bully, American Bulldog, Dogo Argentino, Karabash (Kangal) (Anatolian Shepherd Dog), Caucasian Shepherd Dog, Rottweiler.
- Carrier requirements for fighting dog breeds:
  - special carriers, compliant with IATA regulations, are necessary for transporting fighting dog breeds
  - the carrier or crate must be constructed from wood, metal, synthetic materials, weld mesh, or wire mesh. Specific design criteria apply to the frame, sides, floor, top, and opening.
  - the crate must not include any parts made of plastic,
  - the opening must be made of heavy-duty wire mesh, metal, or reinforced wood, securely fastened to prevent accidental opening,

- it must be designed with openings small enough to prevent the animal from extending any part of its body through, ensuring protection against bites or scratches.
- Lufthansa will no longer transport brachycephalic breeds in the cargo hold.
  - brachycephalic dog breeds include (these restrictions also apply to cross-breeds of the above-mentioned breeds): Affenpinscher, American Bully (see also breeds and cross-breeds classified as fighting or dangerous dogs), Bulldog (all breeds with the exception of the American Bulldogs), Pugs (all breeds), American Pit Bull Terrier, American Staffordshire Terrier, Boston Terrier, Boxer, Brussels Griffon, Bull Mastiff, Bull Terrier (Miniature Bull Terriers are not classified as brachycephalic or as fighting dogs), Chow Chow, English Toy Spaniel, Japanese Chin, Japanese Spaniel, Lhaso Apso, Pekinese, Pit Bull, Shar Pei, Shih Tzu, Staffordshire Bull Terrier, Tibetan Spaniel.

### **Transport in the cabin**

- maximum weight: 8 kg (pet + carrier),
- the carrier's maximum size: 55x40x20 cm (length x width x height),
- maximum 1 dog per passenger,
- maximum 3 dogs are allowed per flight,
- dogs must be 12 weeks old.

### **Transport in the aircraft hold**

- the carrier's maximum size: 121x81x88 cm (length x width x height).

## **Turkish Airlines**

### **Web**

<https://www.turkishairlines.com/en-hu/any-questions/traveling-with-pets/>

### **General information**

- to transport a pet, all required documents mandated by the destination country must be complete and valid,
- pets cannot be transported on Turkish Airlines flights with final destinations in the UK, including connecting flights,
- according to the decision by the United States Center for Disease Control and Prevention, as of July 14, 2021, any dog traveling from a high-risk country or that has been in a high-risk country within six months prior to the flight will be temporarily banned from entering the USA due to the risk of rabies.

### **Transport in the cabin**

- maximum weight: 8 kg (pet + carrier),
- the carrier's maximum size: 40x30x23 cm (length x width x height),
- the carrier must be placed under the seat in front of you,
- the pet and the carrier count as carry-on baggage,

- only animals of the same species and living habits may be transported in the same cage within the cabin, two dogs that are accustomed to each other may travel in the cabin and in the same cage, as long as their combined weight does not exceed 8 kilograms,
- dogs (Affenpinscher, Pekingese, Pug (all breeds), Shar Pei, Shih Tzu, Japanese Dog, Lhasa Apso, Tibetan Spaniel, Chow Chow, English Little Spaniel, English Bulldog, French Bulldog, Boston Terrier, Boxer, Brussels Griffon, Bullmastiff, English Mastiff etc.) with respiratory problems are permitted in the cabin if their weight do not exceed 8 kilograms (together with the carrier). Pilots make the final decision on whether pets can travel. If ventilation conditions are insufficient, animals will not be allowed to travel as checked baggage.

### **Transport as a cargo**

- maximum weight: 50 kg (pet + carrier),
- the carrier's maximum size: 125x75x75 cm (length x width x height),
- to ensure the safety of animals transported in the cargo compartment, cages must be rigid-sided,
- fabric pet carriers are not allowed,
- for the pet's comfort, the cage must be spacious enough for the animal to lie down, stand up, and turn around comfortably,
- the cage should be well-ventilated and waterproof,
- if your pet will be waiting for 4 hours or longer or if the flight duration exceeds 8 hours, the carrier must include informative instructions, food, and an automatic water dispenser to meet the pet's nutritional and special needs. Additionally, ensure a tag with the pet's identification information is securely attached to the carrier.
- dogs with respiratory issues are no longer permitted to be transported in the cargo compartment of the aircraft. Such dog breeds are: Affenpinscher, Pekingese, Pug (all breeds), Shar Pei, Shih Tzu, Japanese Dog, Lhasa Apso, Tibetan Spaniel, Chow Chow, English Little Spaniel, English Bulldog, French Bulldog, Boston Terrier, Boxer, Brussels Griffon, Bullmastiff, British Mastiff, etc. may have respiratory problems that are not suitable for cabin carriage. If this is the case, reservation and boarding procedures can be performed via Turkish Cargo and the animals can be transported in the cargo section of the aircraft.
- dangerous breeds: American Bulldog, Bandog Tosa Inu, Caucasian Shepherd Dog, French Mastiff, Pincher and all Doberman breeds, Presa Canario, Rottweiler, Mastiffs (except Bullmastiff), Wolfhounds, Anatolian Shepherd Dog, Boerboel and hybrids of these breeds may only be transported in the aircraft's cargo section if they are accepted by Turkish Cargo.
- up to three dogs between 10 and 24 weeks old, born from the same mother, can be transported together in a single carrier, each weighing up to 14 kg, and accustomed to be together.

## Ukraine International Airlines

### Web

<http://www.flyUIA.com>

### General information
